

REPORT OF THE EDITOR OF THE JOURNAL OF THE TENNESSEE ACADEMY OF SCIENCE

JESSE M. SHAVER

THE JOURNAL OF THE TENNESSEE ACADEMY OF SCIENCE has passed through a most difficult year. Printing and engraving costs have materially increased. The cost of corrections to author's proofs have been paid for by the authors concerned and in addition many authors have generously paid for the engravings used in their papers. A total of 318 pages of articles and 18 pages of advertisements have been published.

As in previous years, the JOURNAL is deeply grateful to our advertisers for the fine support that they have given us. Now it is our turn to show our appreciation by giving these advertisers an opportunity to demonstrate the quality of their products and the cheapness of their prices.

A brief summary of the cost of the 1934 JOURNAL is given in the table below:

ISSUE OF JOURNAL	TOTAL PAGES	PRINTING COST	COST OF CUTS	TOTAL COST	INCOME FROM ADVERT'S.	NET COST
