

# A BRIEF SKETCH OF THE LIFE AND WORKS OF DOCTOR AUGUSTIN GATTINGER

By

HENRY N. OAKES

A very valuable summary of the life and work of this pioneer Tennessee botanist, including much of his correspondence with Asa Gray, G. Engelmann, John M. Coulter, L. H. Pammel, William Trelease, A. W. Chapman, F. Lamson-Scribner, Albert Ruth, Sereno Watson, C. S. Sargent, Roland M. Harper, Walter Deane, Charles E. Bessey, and others of his time. The correspondence adds much to the history of botany and gives interesting side-lights on the botanists of this period.

The Tennessee Academy of Science is very anxious to include in its membership all teachers and professors of science, research workers in science both in educational institutions and industrial establishments, and all others who are interested in some phase of science. We invite you to join our organization and take part in our activities. The annual dues are: \$2.00 for members and \$10.00 for sustaining members. They may be sent direct with your application for membership to the secretary.

## FOR ROUTINE OR RESEARCH MICROSCOPY

Whether you need a microscope for routine or research, the B & L Type H will answer most requirements.

This stand possesses the rigidity, balance, and mechanical ability to give a lifetime of trouble-free performance. With the H Type Microscope you may select the optical system best suited to your requirements.

The excellence of design, materials and workmanship, the optical and mechanical equipment and the wide range of models, are the reasons why so many H, HS, HSA, HSET and HSEAT microscopes are used in medical laboratories throughout the world.

For complete details write to Bausch & Lomb Optical Co., 657 St. Paul Street, Rochester, New York.
