JULY, 1938

JOURNAL of the Tennessee Academy of Science

EDITORIAL STAFF

JESSE M. SHAVER, *Editor*, George Peabody College for Teachers, Nashville.
HARRY MONK, *Ornithology Editor*, Ovoca Apts., Nashville.
GEORGE M. HALL, *Geology Editor*, University of Tennessee, Knoxville.
H. M. JENNISON, *Botany Editor*, University of Tennessee, Knoxville.
HENRY E. MELENEY, *Parasitology Editor*, Vanderbilt University, Nashville.
PHILIP RUDNICK, *Physics Editor*, Vanderbilt University, Nashville.

Entered as second class matter February 12, 1926, at the post office at Nashville, Tennessee, under Act of August 24, 1912, acceptance of mailing at special rate of postage provided for in Section 1103 Act of October 3, 1917, and authorized September 16, 1931.

Published quarterly, in January, April, July and October, by the Tennessee Academy of Science at Nashville, Tennessee.

The Journal is sent to all members not in arrears for dues. The subscription price is \$2.00 a year, invariably in advance. Single copies 50c. One dollar from the \$2.00 dues of each member is for a subscription to THE JOURNAL OF THE TENNESSEE ACADEMY OF SCIENCE.

All articles and communications for publication, books and publications for review should be addressed to the Editor.

New subscriptions, changes of address, and applications for membership should be addressed to the Secretary. Personal items, news of events in the scientific world, and other notes suitable for our "Notes Here and There" department may be addressed to the Editor.

THE TENNESSEE ACADEMY OF SCIENCE (FOUNDED, 1912, AT NASHVILLE, TENNESSEE)

Affiliated with the American Association for the Advancement of Science

AFFILIATED SOCIETIES

Tennessee Ornithological Society, Nashville, Tennessee.
Barnard Astronomy Club, Nashville, Tennessee.

OFFICERS

JESSE M. SHAVER, *President*, George Peabody College for Teachers, Nashville.
A. W. DICUS, *Vice-President*, Tennessee Polytechnic Institute, Cookeville.
JESSE M. SHAVER, *Editor*, George Peabody College for Teachers, Nashville.
J. T. MCGILL, *Secretary-Treasurer*, Vanderbilt University, Nashville.
MISS ELEANOR EGGLESTON, *Librarian*, Vanderbilt University, Nashville.

The Tennessee Academy of Science is very anxious to include in its membership all teachers and professors of science, research workers in science both in educational institutions and industrial establishments, and all others who are interested in some phase of science. We invite you to join our organization and take part in our activities. The annual dues are: \$2.00 for members and \$10.00 for sustaining members. They may be sent direct with your application for membership to the secretary.

NEW! PHILIPS' BIOLOGY CHARTS

This series of charts has just been announced by Philips of London for whom we are American agents. The charts are edited by A. E. Ellis, Senior Biology Master at Epsom College, and are uniform in size, 24x37 inches.

Chart P214 Frog

For further information about these charts write to

- P201 Incomplete dominance of color in the Four o'clock,
- P202 In complete dominance of plumage color in Andalusian fowls.
- P203 Complete dominance of shell color in the Wood Snail.
- P204 Inheritance of comb characters in fowls.
- P205 Skull of dog, dorsal and ventral views.
- P206 Skull of dog, lateral and sagittal section views.
- P207 Skull of rabbit, dorsal, ventral, lateral and sagittal section views.
- P208 Skeleton of rabbit, studies of vertebrae.
- P209 Skeleton of rabbit, ribs, sternum and limb girdles.
- P210 Skeleton of rabbit, limb bones.
- P211 Protozoa. Ameba, paramecium, vorticella, etc.
- P212 Earthworm, dissection and cross section.
- P213 Earthworm, reproductive system.
- P214 Frog, vascular system.
- P215 Algae, Spirogyra, etc.
- P216 Leaf, cross section, stomata, etc.

TURTOX BIOCHROME CHARTS

The All-American Colored Charts for Biology

An entirely new series of 12 colored charts for Zoology including the forms most generally studied in American schools.

Biochrome charts are *strictly American* in origin and execution and use only *American subjects*. They are of *large size* (30x40 inches) and use colors which are not only *easy on the eyes* but also closely reproduce the *natural color* of the animal.

Durable, *permanent pigments* in the paints (not inks) placed on tough *chart cloth* will outlast ordinary lithographed charts by many years. Yet the *cost is less* than that of any similar imported charts previously offered.

Series for Zoology

Ameba—Grantia—Hydra—Starfish—Earthworm—Crayfish
Grasshopper—Clam—Shark—Perch—Frog—Cat

Prices for single charts are from \$5.75 (unmounted) to \$6.25 on common rollers.

Ask for our folder illustrating these charts in natural color.

CLAY-ADAMS CO., INC.

25 EAST 26TH STREET, NEW YORK

Carolina Biological Supply Company has made many additions to its slide stock during the past six months. Under its reorganized program this department is now making very satisfactory progress. New preparations are being added, and more complete stocks of the common items are being prepared. Every effort is directed toward the improvement of quality, rather than toward mass production of just commonplace slides.

Persons interested in receiving our catalogues, who do not appear on our mailing list, are urged to drop us a card asking to be placed on the mailing list.

SCHOLARSHIPS

At The Reelfoot Lake Biological Station

The Tennessee Academy of Science announces that the Reelfoot Lake Biological Station will be open from June 7 to September 10, 1938, for research work, under the direction of Dr. Clinton L. Baker, Director. The Academy requests the faculties of universities and colleges in the State to nominate competent persons who may be chosen to receive scholarship grants to do research work at the Station. Scholarships will yield about ten dollars per week and will be limited to the summer. It is understood, however, that the awarding of grants is not limited to persons recommended or representing these institutions.

For further information and application blanks, write to

Dr. Clinton L. Baker, Director, Southwestern, Memphis, Tenn.
