

TURTOX RESEARCH SERVICE

The Sign of the Turtox Pledges Absolute Satisfaction

The Turtox Research Service is our attempt to secure for teachers and research workers in the biological sciences materials and specimens needed for their work which cannot be easily obtained from routine sources. This service costs you nothing, and we do not offer anything for sale in this connection.

There are three possible procedures: (1) If our files list sources for the special material you want, we will send you the information and you can buy direct from the source. (2) If the material you wish can best be secured by our purchasing department, we will buy it for you and bill it to you at actual cost—exactly what we have to pay for it. (3) If the wanted materials are not easily located, or if you wish specimens from many areas, you may prepare a "research request" for publication in Turtox News. This will be printed without cost to you.

If we can be of help to you, feel perfectly free to make use of the Turtox Research Service.
