TENNESSEANS AT THE A. A. A. S.

(Continued from Page 45)

John M. Frazier, a former Tennessean, now at the Mississippi State College for Teachers, Hattiesburg, Mississippi, is still a member of the Tennessee Academy of Science, and is interested in Tennessee people. He read a paper before the American Association of Economic Entomologists, on *Ecological Factors Inducing Flat-Headed Apple Tree Borers, Chrysobotris femorata Fabricius, to Attack Peach Trees.*

THE CAVES OF TENNESSEE AND KENTUCKY

The caves are portrayed unusually attractively by distinguished scientists from many Tennessee colleges in the Cave Number of the *JOURNAL OF THE TENNESSEE ACADEMY OF SCIENCE*. Zinc etchings indicate the region of caves in Tennessee, the position of the great cave regions of the United States in a diagrammatic section of the Earth's Crust, and the caves of Tennessee and Kentucky in relation to the Mississippian Formations. Forty half-tone illustrations indicate the beautiful formations in the caves of this region.

Contents:

- The Nature and Formation of Caves.* By Berlen C. Moneymaker, Dept. of Geology, the University of Tennessee.
- Underground in Tennessee and Kentucky.* By Erwin R. Pohl, Dept. of Geology, Vanderbilt University.
- Cave Animals of Tennessee.* By J. D. Ives, Dept. of Biology, Carson-Newman College.
- The Cave Man in Tennessee.* By P. E. Cox, Tenn. State Archeologist.
- Tennessee Caves in Historical Times.* By John L. Morris, Dept. of History, Middle Tennessee State Teachers College.
- Caves in Mythology.* By Charles Little, Dept. of Classical Languages, George Peabody College for Teachers.

56 pp., 43 illustrations. Paper, \$0.50.

Special prices to cave owners in one hundred lots. Write for prices.
