All inquiries or orders should be sent to Dr. J. T. McGill,
Secretary, Vanderbilt University, Nashville, Tennessee.

The Liverworts of Eastern Tennessee

A Preliminary Report

By Professor A. J. Sharp

The two year study of the liverworts of this region is here reported on. A total of sixty-nine species in forty-one genera are listed as having been found in this area during this period. A carefully worked out key is included. This key to these species and list makes the paper extremely valuable to other workers in this field.

Two half-tones and one plate

Price \$0.50. Order from

Dr. John T. McGill, Secretary of the Tennessee
Academy of Science, Vanderbilt University,
Nashville, Tennessee
